## PARTNER SPOTLIGHT:

***Sandra Khalil***  
***CrossLink Medical Resources***

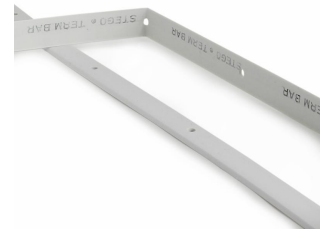

"Thank you very much for the radon fan and test kits you donated for the home in NJ. With the help of a certified radon installer who volunteered labor and your fan donation, a radon system was installed in March 2017.

The woman who was living in the home has Cerebral Palsy and a lung problem, and was only receiving disability income. She had high radon in her home (over 5 pCi/L), and had no means to remediate.

Another person with a developmental disability has since moved into the home,

## PRODUCT SPOTLIGHT: ***NEW! White Stego Term Bar***

At RadonAway and RCi, we have been sourcing and selling the best sealing and crawlspace encapsulation products on the market for decades. This year, we replaced our red Stego Term Bar with our NEW white Stego Term Bar, which won't stick out

like a sore thumb when installed (especially with white vapor barrier!). The all new white Stego Term Bar is a semi-flexible white plastic made from post-industrial recycled PVC with pre-drilled holes to save you time securing vapor barrier. [Learn more.](#)

## TECH UPDATE: ***GP Models - All Small Change with Your Needs in Mind***

feedback and changing industry need. Our skilled Production team takes this feedback and works to make it a reality!

Effective as of this week, all GP models will be packed in the box with the electrical cover kit included inside the bag with the wire nuts, etc. The cover will NOT be screwed onto the fan. Although this is a simple

At RadonAway, we're always looking for new ways to bring you the best quality products for your needs in the field - this includes modifying our existing products too! Our Engineering team thoroughly tests and retests every product we bring to market, taking into account customer

and the home was tested using the kits you provided in May. The basement and first floor returned results below 1.0 pCi/L!

This work is part of a large project that improves the health and safety concerns in the home. All labor and materials have been donated so far with about 25 volunteers on the house since February of this year.

State grants and programs are also in progress that will be supplementing our volunteer efforts to address the health and safety concerns.

I also wish to thank you for your efforts and commitment to remediate the radon since we all know radon is linked to lung cancer.

Preventative measures to reduce the risk of lung cancer are important to those advocating for patients. CrossLink Medical Resources advocated for patients, and the patients supported are blessed to have the team at RadonAway to help."

- Sandra Kahlil, CrossLink Medical Resources

## RADON IN THE NEWS: ***"Made in America" Week***

(800) 767-3703

[sales@radonaway.com](mailto:sales@radonaway.com)

This week marks the first Made in America Week, which, in President Trump's words, recognizes "the vital contributions of American workers and job creators to our Nation's prosperity and strength."

This week-long celebration honors American manufacturers, focusing on manufacturing as the foundation of the American economy, the quality craftsmanship our country is known for, and our national origins as builders and innovators.

At RadonAway, we are proud to be a part of the American legacy of quality manufacturing, American-built goods, and community-building through job creation and helping to grow our unique industry. Thank you to all of our partners for joining us in making American homes safer through hard work, dedication, and an unyielding desire for quality products.
