***Home Radon Detection
Overland Park, KS***

Home Radon Detection is a self-described "nice family business" started by Mike and Irene Hughes in 1987. It has enabled them to build a house and raise a family comfortably. Their son Kyle, who is certified in measurement and mitigation, started helping out when he was 14 and will be taking over the business when Mike retires. Mom Irene does not plan to retire. Their daughter has also been part of the business, working in the office part-time when in high school and college.

Back when Mike and Irene started the business, real estate agents called them directly for testing and

PRODUCT SPOTLIGHT: ***Coming Soon - HI-PERDRAIN!***

Get ready for the radon industry's most compact, high-performing sump cover drain!

The HI-PERDRAIN™ ST by RadonAway is the best sump drain sealing product in the radon market. Its super-low profile, easy installation (just thread it into one of the 4 sump covers listed below), and you're done!

Plus, the HI-PERDRAIN RF (for Retrofit - P/N 28512) will fit into any existing lid. Using a hole saw (such as RadonAway's P/N 28282-32), just cut a 3.5" hole, drop in the adapter and seal in place.

Recommended clear, 1/4" polycarbonate sump covers:

Part Number	Size (O.D.)
28478	16 inches
28479	18 inches
28480	20 inches
28481	24 inches

TECH TIP: ***GM 1-2***

The RadStar GM 1-2 is a one-of-a-kind diagnostic aid designed specifically to meet the needs of radon

mitigation services. Then home inspectors stepped in, so direct contact with agents dropped off. They also have seen uncertified, uninsured people installing systems, but much of their business is from builders and "heavy hitter" realtors who prefer to work with qualified, insured mitigators because they know there won't be problems and callbacks.

"We are very proud to say that we have used RadonAway fans ever since they were introduced. We appreciate that you provide technical support and address any concerns promptly. We intend to stay with the 'sure thing'!...We know what we're getting every time."

- Irene & Mike Hughes,
Home Radon Detection

RADONAWAY NEWS:

It's Lung Cancer Awareness Month - Take Action and Be Proactive!

Join our team of heroes! Participate in an ALA LUNG FORCE Walk.

RadonAway attended the LUNG FORCE Expo in Boston on Nov 3rd. **LUNG FORCE** is a nationwide initiative led by the American Lung Association to

unite women and their loved ones to stand together against lung cancer and lung health. They also represent Lung Force Heroes such as Janice, a "never smoker" who was diagnosed with Lung Cancer. She taught for 31 years in a building that that tested high for radon. Join our team of Heroes by promoting the importance of radon testing and be on the lookout for LUNG FORCE Walk Events in your area. Above are two of our own RadonAway Heroes leading the charge.
