The FORCE was with captain Ed Beauregard & the RadonAway 86ers in Rhode Island.

Spruce's Paul Owens, Director of Marketing, and Radon Mitigator Ed Beauregard of TWR Services, assembled an enthusiastic radon awareness team at ALA's LUNG Force Walk which took place at the beautiful Roger Williams Park in Providence, RI. It was another successful event in educating the community about the importance of testing for radon, providing resources and information.

Please call or email Paul Owens if you are interested in attending an event in your area.

8 NRPP CE Credits
\$175

**Radon Measurement Webinar
Sept 18-19**

8:30-5:30pm (ET)

**Radon Rick's Tech Tip:
Anti-Vibration Hardware**

Before RadonAway® fans are built, each motor is tested for noise and vibration. Once assembled, they are performance tested again to ensure they are as quiet and vibration-free as possible. Any vibration after installation is often the result of the installation and not the fan itself.

Our anti-vibration products match all of our pipe clamp offerings and will help reduce system
