

July E-Newsletter

Stay informed with the latest news, events, product information & more!

We're closed at all locations on July 4th but open 24/7 online with orders filled the next day. It is also a UPS holiday, so no shipments or deliveries.

Our RP265 Radon Fan just got even better!

For over a year, our engineering team has been collaborating with EBM, one of our motor manufacturing partners, to enhance the RP265 Pro Series Stay-White™ fan. The result is better performance curves for air flow and pressure along with continued quiet operation.

RadonAway86ers teamed up in Cleveland for the LUNG FORCE WALK

Led by Spruce Account Manager Julie Meeks, Spruce Trainer David Metzger, and Ari Ghahremani from Radon Survey Systems Ohio, the RadonAway86ers brought family, furry friends, and a whole lot of fun to the LUNG FORCE Walk in Cleveland. They discussed radon with engaged participants and handed out radon test kits.

Learn how you too can walk for awareness in your area and help support a wonderful cause!

LUNG FORCE Walks

A Successful NEARST Conference in Portsmouth, NH

RadonAway, AccuStar and Spruce were sponsors of the NEARST Conference last week in Portsmouth, NH, which was offered by the first time in the meeting room and via simultaneous live webinar! Speakers/instructors who made the conference a big success were: NEARST President Dave Hill, AARST National Past President Shawn Price, AARST National President-Elect David Daniels, Angel Price of CanSAR, Michael Kitto, Research Scientist NY State Health Laboratories (retired), Real Estate Agent/Radon Tester Laura Rossinow, Radon Mitigator Ed Beauregard of TWR Services, and Matt Hendrick, Jill Newton and Jill Hochmuth of Spruce Environmental Technologies, Inc.

**Radon Rick's Tech Tip:
Try the Radon-T**

RadonAway® Radon-T provides a stable base for new construction and crawlspace systems.

- Replaces ordinary pipe fittings as a base for RRNC & crawlspace systems
- Stabilizes the vertical pipe
- Saddles over the perforated pipe providing better air flow
- Prevents blockage by construction debris
