Another Way to Boost Ahead of The Competition.

NEW! HomeAire™ Duct Boost Fans are designed to give a heating and cooling system the lift necessary to push conditioned air into existing or newly expanded living or working areas as well as any other areas where it is needed. They improve system efficiency and provide better energy efficiency.

Features & Benefits:

- Pre-wired with a 72" long 3-prong power cord and junction box permanently attached to the fan at the point where the motor wires exit the metal duct pipe.
- Thermally protected motor

Spread the Word: The 'Radon Challenge' has begun!

Many of you may have had the pleasure of hearing from or meeting Rachael Malmberg, a keynote speaker at the 2018 AARST Symposium, and recently elected President of Cancer Survivors Against Radon (CanSAR). Most importantly, Rachael is a mother, wife, USA hockey gold medal winner, and non-smoker who is battling Stage IV lung cancer.

This month, we can help Rachael make a difference for many others by sharing her 'Radon Challenge'. As Rachael says, "If it can happen to me, it can happen to anyone." Please watch her

- Long-lasting galvanized steel housing
- Durable plastic fan blades
- 4" Maximum 70 CFM
- 6" Maximum 135 CFM
- 8" Maximum 210 CFM
- ETL (U.S. and Canada)/CE Listed

We Want to Hear From You (and so do others)!

Your feedback is always of the utmost importance to us. It helps our team understand what is beneficial to you and what can be improved upon so we can continue to grow and evolve our product offering to suit your needs.

Next time you purchase online from one of our brands, please consider writing a product review. We value your opinion and so will others when seeking information on a product.
