### NEW PRODUCT!

#### RadonAway RSA1 Radon System Alarm

The RadonAway RSA1 Radon System Alarm (RSA1) is a vacuum monitoring device utilizing piezoresistive pressure sensor (PPS) technology. This alarm provides audible and visual indication to alert the homeowner when the radon system is not moving sufficient air.

Meets current ANSI/AARST Radon Mitigation Standard SGM-SF-2017 requiring a "visual and/or audible" method for notifying the homeowner of fan or other mechanical failure.

P/N 28535

- For Use on 2", 3", 4", or 6" Pipe or Flat Surface
- Vacuum Sensing
- Battery Operated/Battery Also Included (No Wiring Required)
- Visual and Audible Indicators
- Alarm and Service Delay Functions
- Hush & Test Buttons
- Pipe or Wall Mount
- Easy To Install

## Which Fan Fits the Job?

Use the RadonAway Fan Replacement Guide! You can find it within our printed catalog or online anytime to find the most suitable fan. Still unsure? Consult our Technical Service team for advice.

[Fan Replacement Guide](#)

### Tech Tip: Stacking Fans

Mounting two fans in a series will affect the performance of the overall system, but it may also affect the service life of the fans. In general, the static capability of two fans is doubled; however, the airflow remains about the same. Stacking fans can be useful in dealing with tight sub-soils, but beware that the heat generated by the upstream fan is discharged into the downstream fan, which may cause the fan to run hot and reduce the service life of the fan. If you do stack fans, ensure that you provide adequate airflow through the fan to keep the bearings and the motor windings cool.

## 7 Solid Reasons to Try VAPORMAT™

1. Easy to install
2. >40% recycled pre-consumer material
3. Can replace perforated piping and/or gravel under slab or radon/vapor barrier
4. Maintains air flow communication when used with an active fan
5. Meets requirements for LEED V4 Building Design and Construction Materials and Resources Credit 3 (1-2 Points)
6. Complies with building codes: IRC Appendix F, RRNC 2.0 and ASTM E-1465
7. Saves Time and Money!

## Upcoming Radon Training Events:

Remember to check back to view additional courses added to the program - webinar and classroom settings!

### **February 26, 2020**

Advanced Multifamily Measurement Webinar  
NRPP Add-On Certificate  
8 hours CE Credits  
Course Fee: \$175

[Register / Learn More](#)

### **March 17-18, 2020 (2 day)**

Radon Measurement Webinar  
and NRPP Certification  
16 hours CE Credits  
Course Fee: \$184

[Register / Learn More](#)

### **March 19-20, 2020 (2 day)**

Radon Mitigation Webinar  
NRPP Add-on Certificate  
24 hours CE Credits  
Course Fee: \$214
