

DRYER BOOST

INCREASE AIR FLOW AND DRYING EFFICIENCY.

There is a solution to getting clothes completely dry.

Adding a Spruce inline auxiliary fan to a drying system with long duct runs or multiple bends boosts system capacity, conserves energy and reduces both drying times and excessive wear and tear on the dryer. Five kits are available, offering two fan options and up to three switch choices: pressure sensing, current sensing, and pressure sensing with timer.

Dryer Boost Kit Features

- RB110 EnergyStar® Rated or RB190 inline fan
- Five-year warranty
- Quiet and effective
- Energy efficient

MADE IN USA Made in USA with U.S. and imported parts.

5 YEAR WARRANTY All Spruce™ inline radon fans are covered by our 5-year, hassle-free warranty.
