RADON MANAGEMENT CLOUD
The **Radon Management Cloud** is the web-hosted application that will provide you access to manage your company's testers, test details, and reporting features. We have developed both a mobile application and a desktop application you will use in the field to start, stop and synchronize your radon test results to the **Radon Management Cloud**.

MANAGEMENT CLOUD FUNCTIONS INCLUDE:

- Manage, in one place, all tests performed by your company

- Customize and standardize report content and layouts for your company

- Customize email notifications to your customers

- Manage Administrator and Tester users within your company

- Online storage and backup

ACCESSIBILITY

Mobile: The Radon Management Cloud will be available for all iOS and Android mobile devices, including phones and tablets.

Desktop: The desktop app will be available for use with Windows PCs.

THE RADON MANAGEMENT CLOUD IS COMPATIBLE FOR USE WITH ALL RADSTAR ALPHA MODELS AND:

- RadStar Alpha α310

- RadStar Alpha α516

- RadStar Alpha α830

- RadStar RS300

- RadStar RS800

- Sun Nuclear 1027
