

## HANGERLOK® PIPE HANGERS

### EXCLUSIVELY FROM RADONAWAY®

These 3" and 4" white pipe hangers are colored to our specifications to match white PVC pipe, enhancing system aesthetics. Available exclusively from RadonAway, the adjustable, automatic-locking HangerLok® clamps hold the pipe more securely to the house, allowing less movement and vibration and minimizing pipe noise. They are an effective, effortless value-added upgrade for those system installations where vibration control and looks really count.

### SPECIFICATIONS

- UV stable material
  - 3" size - white HDPE
  - 4" size - white HDPE
- Adjustable to hold pipe securely
- Automatic-locking
- Available in 3" and 4" sizes
- Corrosion-resistant
- Made in USA
- Available only from RadonAway®

RadonAway fan motors are designed, built, and tested for noise and vibration. Any vibration that may occur after installation is often the result of the installation and not the fan itself. To further eliminate the potential for vibration, we match our pipe hangers with vibration-reducing dampeners, grommets and bushings.

#### Compatible Anti-Vibration Hardware

P/N	ITEM	FOR USE WITH
28433	3" HangerLok Dampener	76075
